“ Cindy, you are my sister. I love you. I hope you have found the peace I know you have been searching for. I will miss you terribly. I so greatly appreciated and hold dear to me those times that I needed someone just to talk to me and not to have to talk back, especially these past 15 1/2 months. Thank you so much for that. My broken heart already feels your loss, but I am glad you are free my friend. I will miss you so much...
